MEKO

Dining Range

Description

The Meko dining range showcases the natural beauty of walnut timber, characterized by graceful curves and rounded, almond forms. Each piece is designed to invite comfort and conversation, while the smooth lines and rich hues of the walnut convey a sense of sophistication, making the Meko range a stunning centerpiece for gatherings and everyday meals alike.

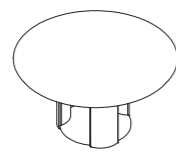

Material

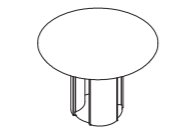

Walnut timber is a strong and versatile hardwood prized for its rich color and distinctive grain patterns. Its smooth texture and natural luster highlight deep brown tones that, over time, take on added warmth or golden undertones. This natural aging process enhances the wood's character, giving it a refined, lived-in appeal. Durable and resistant to warping, walnut remains a preferred choice for artisanal craftsmanship, where its depth and beauty are celebrated in every detail.

Warranty

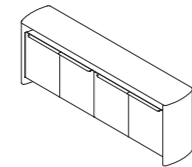

All of our product is backed by a 12 month structural warranty.

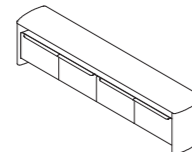

Dining Table Ø1500
Dimensions
Ø1500 x 760

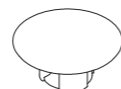

Dining Table Ø1100
